

Memorandum for DDS -

Subject - Color Badges

Reference { Gen. Glaydon memo &  
our memo to DDS

1. We have directed our effort  
to paragraph 1. a of Gen. Glaydon memorandum  
we think  
to me, a \$ 40,000 expenditure for  
equipment indicates continuous color  
processing which is primarily a large  
volume operation. should be justified  
in more detailed fashion than is apparent  
in letter Colonel [REDACTED] memorandum

25X1A9a

25X1A9a

(with attachment of Gen. [REDACTED])

c. What are the volume and quality considerations in various sizes and types of equipment as they relate to cost?

d. I would like to see typical, good samples of badge type photographs processed on various sizes and types of equipment.

2. I prefer not to deal with building alterations, ~~or~~ personal considerations <sup>potential future</sup> or ~~potential~~ uses of color equipment until the basic questions of ~~kind~~ size, capacity of equipment required for the badge system and cost, have been resolved. May I have a reply at your earliest convenience.

Memorandum for : Director of Logistics

Subject : Color Badges for Guyana  
Pursuant

References : (by my A + B from DDS memo  
of 10 Feb)

1. ~~while~~ I can see the advantages  
of color photography for badges. However, before  
I approve a (major) capital investment  
(of the amount requested) I would like  
more information.

a. what color equipment would  
we be getting for our \$40,000?

What <sup>is</sup> the equipment <sup>in</sup> available?  
Which would do the job for less?

DD S-60-0618

1. Can we get correspondence between  
D/Loy + D/Security?
